**POWELL
VALVES**

Valve Performance, Global Service + ROI = Powell Valves

Since 1846, Powell Valves has been centered around one thing: 100% customer satisfaction. We strive to continually improve on all aspects of our daily operations. As a leading industrial valve manufacturer, we offer a wide range of products. Our product line includes: gate valves, check valves, globe valves, non-return valves, dual-plate check valves, and high performance butterfly valves. With the most complete multi-turn product line for a single source manufacturer, our valves are produced to the highest quality standards with ultra-modern manufacturing technology and astute materials sourcing.

We have now taken that same high quality product philosophy for over 170 years with our legacy products and introduced our NextGen Engineering Valve Technology ball valve and resilient seated butterfly valves. Powell Ball and Butterfly valves are designed and engineered to meet the stringent standards of the Chemical, Refining, Pulp & Paper, Power Generation and Industrial Gas Industry. Our product design and quality enhance reliability for isolation valve requirements for the end user customer.

Our industry leading investment of finished goods inventory in Houston, Texas and Orangeburg, South Carolina consisting of one-piece, two-piece, three piece and flanged carbon steel, stainless steel, brass & special alloys ball valves up thru 12" and Resilient Seated and High Performance Butterfly valves up through 36" will provide the fastest delivery in the industry.

- Cryogenic Cleaning
- Capital Project Valve Management Process
- API607 Fire Safe Ball Valves

1-PC SCREWED END

Size Range: 1/4" ~ 2"

Pressure Class: 1000 WOG

Materials: WCB, Stainless Steel
B110TM - B110TC

2-PC SCREWED

Size Range: 1/4" ~ 4"

Pressure Class:

1/4" ~ 1" - 2000WOG

1-1/4" ~ 2" - 1500 WOG

2-1/2" ~ 4" - 1000 WOG

Materials: WCB, Stainless Steel

Firesafe

B220TM - B220TC

3-PC SCREWED

Size Range: 1/4" ~ 2"

Pressure Class:

1/4" ~ 1" - 2000WOG

1-1/4" ~ 2" - 1500 WOG

2-1/2" ~ 4" - 1000 WOG

Materials: WCB, Stainless Steel

End Connection: Socket Weld,
Screwed End

Firesafe

B920-TM - B920TC

1-PC FLANGED END

Direct Mount

Size Range: 1" ~ 4"

Pressure Class: 150

Materials: WCB, Stainless Steel

Firesafe

B501FM - B501FC

HIGH PRESSURE BALL VALVE

Size Range: 1/4" ~ 2"

Pressure Class: 6000 WOG

Materials: WCB, Stainless Steel

Firesafe

B860SM - B860SC

3-PC SOCKET WELD & SCREWED END

Size Range: 1/4" to 4"

Pressure Class: 1000 WOG

Materials: WCB, Stainless Steel

Direct Mount

B710SM - B710SC

2-PC FLANGED END

Size Range: 1/2" to 10"

Pressure Class: 150, 300

Materials: WCB, Stainless Steel

B201FM - B201FC / B203FM - B203 FC

2-PC SCREWED END

Size Range: 1/4" to 4"

Pressure Class: 1000 WOG

Materials: WCB, Stainless Steel

B210TM - B210TC

2-PC SCREWED END

Size Range: 1/2" to 4"

Pressure Class:

1/4" ~ 2" - 600 WOG

2-1/2" ~ 3" - 400 WOG

4" - 250 WOG

Materials: Brass Body, Chrome Plated Ball, Locking Handle

B200T

3-PC SOCKET WELD & SCREWED END

Size Range: 1/4" to 4"

Pressure Class: 1000 WOG

Materials: WCB, Stainless Steel

B310SM - B310SC

HIGH PERFORMANCE BUTTERFLY

LUG • WAFER

Size Range: 2" ~ 42"

Pressure Class: 150, 300, 600

Materials: WCB, 316, 304, A-20, Monel, Hastelloy C, Hastelloy B, Nickel, and Special Alloys

RESILIENT SEATING BUTTERFLY

LUG • WAFER

Size Range: 2" ~ 42"

Materials:

Body - Ductile Iron

Disk - Ductile Iron, Stainless Steel

Seats - Buna, EPDM, Viton, Teflon
